

Reflecting – Learning at Home

 Beginning	 Developing	 Proficient	 Extending
I need a lot of support/reminders to participate in any learning activities and to do my best.	I need some support/reminders to participate in learning activities and to do my best.	I participate in learning activities independently and do my best.	I take initiative with my learning to plan my schedule, organize my activities, set goals with my learning and activities. I participate in learning activities independently and don't need reminders to do what is needed. I go above and beyond with my learning and challenge myself in different ways.
			

1. Mark an X on the line above that shows where you think you are with your learning at home.

2. How do you find the current workload (the amount of stuff you are being asked to do for school)?

- I could easily do a lot more
- I could probably do a little bit more
- Just right
- It's a bit too much sometimes
- It's WAAAY too much!

3. What is one thing you think you are doing really well with your learning at home?

Examples: being organized, completing assignments, doing extra learning, learning about something I'm interested in, doing a lot of reading, practicing my math multiplication, etc.

4. What is something you would like to improve on with your learning at home?

Examples: being more organized, completing assignments, attending all of the zooms, asking for help when I have a question, doing more things in French, etc.

5. Is there anything you would like or need from Mme G. to better support your learning at home? *Examples: more zooms, more projects, help with technology, more math practice, etc.*
